Date: 12<sup>th</sup> Dec 2022

Dear Sheela Mistry,

It is our pleasure to place on record that your support for developing our sustainability report for FY 2018-21, using Global Reporting Initiative-GRI Reporting Standards-2021 and mapping our sustainability performance across UNGC Principles and SDGs is appreciable. We take a note of your proficiency and dedication throughout our association.

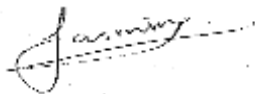

We acknowledge the competencies of the team *Insight Associates* in the arena of sustainability reporting and vital understanding about GRI and other harmonized standards and frameworks.

Sustainability reporting process itself is complex and challenging. Data analysis across integrated standards, materiality assessment and setting futuristic goals were few of the major challenges amidst many. However, your assistance and guidance to our team made the journey worthwhile and comfortable. Our team thoroughly enjoyed working and interacting with your organization.

We are happy to inform you in view of our amiable working experience with you, our management has decided to engage your services for our next project -Suzlon Group Sustainability Report for 2021-22.

Looking forward to work together again in the same spirit.

Best Regards,

Dr Jasmine Sofia Gogia  
Head of CSR, Sustainability & Occupational Health
